

Service Bulletin

01/24/22

To Whom It May Concern,

Due to supply limitations on certain exterior door products, temporary construction doors may be provided on some projects to meet deadlines.

Please remind your installers that construction doors can be out of spec from a standard door offering. These construction doors should therefore not be used as a guide for installers that hang doors to “margins/reveal”, as the permanent door slab may not operate properly.

When installers are installing a frame with a construction door in it, they should make sure it is installed plumb and square so the permanent door will fit properly.

D&M Industries will not be responsible for frame adjustments to make sure there is a proper seal on exterior door units due to installers installing to “margins/reveal.”

If you have any questions regarding this matter, please bring them to the attention of our Customer Service department at customerservice@weselldoors.com.

Kind Regards,

D&M Industries Customer Service Team
